CANTINA BALDASSARRI

BALDASSARRI

OUR STORY

Founded in the second half of the 20th century through the passion and entrepreneurial vision of Luciano Baldassarri and his sons, Cantina Baldassarri extends across 50 km of vineyards in the Collazzone area, in the heart of green Umbria, within the Todi DOC appellation.

The Baldassarri family has deep roots in viticulture and winemaking in central Italy, with its first vineyards dating back to the 1970s. Over the decades, the family's passion and dedication have helped establish the Baldassarri name as a benchmark for quality.

PRODUCTION

Cantina Baldassarri sets itself apart through low yields per vine and high planting density, with the aim of producing high-quality grapes while maintaining moderate overall yields. All canopy management is carried out during the growing season, including shoot trimming, leaf removal and cluster thinning.

The vineyards are planted with both native grape varieties — such as Grechetto and Sagrantino — and international varieties including Merlot, Cabernet Sauvignon, Chardonnay, Pinot Grigio and Viognier. The result is a broad and diverse portfolio comprising more than 10 different labels.

ALDASSARRI

TECHNOLOGY

Cantina Baldassarri is equipped with state-of-the-art technology and modern winemaking equipment, ensuring the highest standards of quality throughout the production process.
Red grapes are transferred directly into stainless-steel fermentation tanks by gravity.
Racking is carried out using trolleys and conveyor belts, allowing for a gentler and more delicate handling of the grapes and wine.

In white winemaking, the must released from the pneumatic press undergoes natural static clarification in temperature-controlled tanks equipped with cooling jackets. This reduces oxygen exposure and allows for more effective settling under controlled temperature conditions.
